- **Version Control Systems:** Git hub.
- **Databases:** SQL, Mongo DB, PostgreSQL
- **Tools:** Git, MySQL
- **Soft skills:** communication skills, problem solving, Time management, Team collaboration

INTERNSHIPS / PRACTICAL EXPERIENCE

Deeksha Technologies
Python developer intern   Sep 2023 - Jan 2024

During my internship at Deeksha Technologies, I developed and maintained Python scripts for data processing and analysis. I collaborated with the data science team to implement machine learning models and automated ETL processes. Additionally, I created visualizations and dashboards using Matplotlib and Seaborn to present data insights effectively.

PROJECTS

Amazon Clone Project:

I developed an Amazon clone using HTML and CSS, focusing on creating a visually appealing and responsive e-commerce website. The project involved designing the homepage, product listings, and individual product pages, ensuring a user-friendly interface and seamless navigation experience.

Tic Tac Toe Project:

I built a Tic Tac Toe game using JavaScript, creating a fully interactive game with a simple yet engaging user interface. The project involved implementing game logic, handling user input, and providing feedback on the game status (win, lose, or draw), enhancing my skills in DOM manipulation and event handling.

Myntra Clone Project:

I created a Myntra clone using React.js, replicating the functionality and design of the popular fashion e-commerce website. The project included developing various components such as product listings, filters, and a shopping cart, while ensuring responsive design and optimal performance for an enhanced user experience.

GyanCode - Bootstrap Project:

I developed a GyanCode educational platform using HTML, CSS, JavaScript, and Bootstrap. The project features a responsive homepage, dynamic course listings, and user authentication, all styled with Bootstrap for a modern design. This enhanced my skills in frontend development and responsive design.

EDUCATION

Bachelor of Computer Applications   Aug 2021 - June 2024

Krishna Chaitanya Degree college
percentage: 90%
